

## Appendix 2: Questionnaire

### Part One

Having read the primary and secondary sources of the four excerpts and the reasons to consider them as examples of false or inaccurate scientific information presented in news articles, answer the following questions.

1. In your opinion, which excerpt is misleading?
  - a. None.
  - b. One of the four excerpts: which one?
  - c. Two of the four excerpts: which two?
  - d. Three of the four excerpts: which three?
  - e. All four excerpts.
2. Why did you make this decision?

### Part Two

After the small-group debate and the whole-class debate, answer the following questions.

3. In your opinion, which excerpt is misleading?
  - a. None.
  - b. One of the four excerpts: which one?
  - c. Two of the four excerpts: which two?
  - d. Three of the four excerpts: which three?
  - e. All four excerpts.
4. Why did you make this decision?
