Abstract
The present study pretends to explain the grammaticalization process of dizque evidential and demonstrate that the path of this change is from concrete to abstract. System generates strategies in order to achieve the communicative efficiency which may be notice on diffusion of change. With the purpose of analyzing these strategies, dizque grammaticalization process is explained and consequences of this evidential are examined. The present analysis allows seeing change process from dice to dizque, from a syntagma with referential meaning into a word with a valorative pragmatic significance.

Keywords
grammaticalization, dizque, evidential, linguistic change.
