Abstract
This paper treats on the influence that is having the Center TIC on the use and the formation of the teaching staff in and with the TIC. Participants in the evaluation of the projects of Centers TIC of Andalusia, the authors identify a series of factors that are common to great part of them. And they offer us a concise vision to us in depth of the stages that usually follow.

Keywords
School TIC, Study of case, Formation of the teaching in the school, Use of the Tic and the educational practice.
