Abstract

The aim of this study was to analyze MIPyMEs in Texcoco Region XI and determine their influence on job creation. According to the economic census data contained in the National Directory of Economic Units (2010 and 2014), in this area there were 18,304 establishments in 2000, with a MIPyME participation of 99.96%. By 2014, this number increased to 19,801, with 99.89%. The PEA grew to 111,049 people in 2005, in comparison to 2000. For 2010, the PEA showed a significant growth to 155,439 people, as well as the occupied people that move to 153,700.
