Abstract
In the theoretical commitment beyond the definition of the representatives and what the Legal Sociology means, it is intended to make a joint not only from the theoretical Contemporary and Classical Sociology, but from the same basics that enabled to decant the scientific nature of the sociological discipline; the genesis goes back through from some thinkers that are considered as pre-social scientists, that not been sociologists and those without existing discipline, laid the basis to create and consolidate a science that seeks to analyze the society and to respond to the issues, events and social trends.

Keywords
Classical Sociology, Contemporary Sociology, Sociology Jurical or of Law, Sociological Foundations, Social Phenomenons, Social Events.
